There are no problems for travelling by car/bus; the roads in Portugal are modern and comfortable for travel. Please note the existence of ELECTRONICS TOLL In Portugal. There are two different types of toll motorways: those which use a system of electronic toll collection and those with traditional tollbooths. The best way to pay the tolls on both types of motorways is with an electronic tag.

The electronic toll collection system identifies vehicles as they pass under gantries (or pórticos, as they are called in Portuguese) erected over the carriageway.
